# Tofino Argon Product Series

The **Tofino® Argon Product Series** is a set of fully extensible products that includes five different Tofino Security Appliances with different attributes and a full range of software modules.

The Tofino Argon Series is sold by Byres Security and selected Tofino Certified VARs.

Note: Tofino Argon Series Security Appliances function only with Tofino Argon Series software modules and packages, as listed on this part number sheet.

Tofino Argon Security Appliances

Plug-n-Protect™, industrially hardened, process friendly security hardware

	100 Model	220 Models
Product Name	Tofino Argon Security Appliance	Tofino Argon Security Appliance
Part Numbers & Connectivity	FA-TSA-100-TX/TX TX= 10/100BASE-TX (Twisted Pair)	FA-TSA-220-TX/TX FA-TSA-220-TX/MM FA-TSA-220-MM/TX FA-TSA-220-MM/MM TX= 10/100BASE-TX (Twisted Pair) MM= Multimode 10/100BASE-FX (Fiber)
Photo		
Operating Temperature Range	-40° – +70° C	0° – +60° C
Power Inputs	9 – 32 VDC Dual Redundant Inputs	18 – 60 VDC Dual Redundant Inputs
Approvals	Class I Div 2 and Zone 2 hazardous environments For a complete list of certifications, download the Tofino Security Appliance Data Sheet from: tofinosecurity.com/products	 For a complete list of certifications, download the Tofino Security Appliance Data Sheet from: tofinosecurity.com/products

TOFINO®

Tofino Loadable Security Modules (LSMs)

Firmware modules that customize the functionality of the security appliances

Product Name	Part Number	Description
Tofino Argon Firewall LSM	LSM-FW-100	Directs and controls industrial network traffic
Tofino Argon Secure Asset Management LSM	LSM-SAM-100	Tracks and identifies network devices
Tofino Argon Modbus TCP Enforcer LSM	LSM-MBT-100	Content inspection for Modbus
Tofino Argon VPN Server LSM Tofino Argon VPN Client LSM Tofino Argon VPN PC Client License	LSM-VPNS-100 LSM-VPNC-100 LSM-VPNL-100	Secures remote SCADA communication
Tofino Argon Event Logger LSM	LSM-LOG-100	Reliably logs security events and alarms
Tofino Argon OPC Enforcer LSM	LSM-OPC-100	Content inspection for OPC

Tofino Central Management Platform

An easy to use software application for configuring, testing and monitoring security appliances

Product Name	Part Number	Description
Tofino Argon Central Management Platform	FA-CMP-100	Coordinates security management
