Tofino™ 9211-ET-HN3

Honeywell Modbus Read-only Firewall

- industrial network protection
- simple installation
- 10/100Mbps Ethernet
- preloaded Modbus Read-Only configuration
- field upgradable
- power supply redundancy
- Class I /Div 2 and Zone 2 rated
- DIN-rail mounting

The Tofino™ HMRF Honeywell Modbus Read-only Firewall (HMRF) is a new and unique solution from Honeywell, MTL and Byres Security that addresses the important issue of protecting Safety Integrated Systems from malicious or accidental disruptions.

Instead of the standard, highly complex, "IT-style" firewall that requires highly-trained staff to install it, the Tofino™ HMRF device only requires a field technician to attach power and two network cables and then walk away. The Tofino™ HMRF is preconfigured to filter network traffic between the Experion control network and the Safety System allowing the Experion to only read SIS data and to respond to time synchronization requests.

The system has the flexibility to protect a small plant with a single controller, or a multi-national organization with thousands of critical devices scattered around the globe. The Tofino™ HMRF security appliance is designed to sit between Honeywell's Experion control and safety critical networks, protecting them both from harmful traffic.

The Tofino™ HMRF is a layer-7 stateful firewall that ensures proper protection of a safety network from viruses or hackers that may penetrate the plant via laptops, USB storage devices and other means.

Configuration is not required - the Tofino™ HMRF starts up ready to protect the safety network. All Tofino™ security appliances are field-upgradeable via the secure USB upgrade process where files are both encrypted for confidentiality and signed for integrity.

The Tofino™ HMRF will provide details on all network traffic conditions and anomalies to the Honeywell system, via standard Honeywell reporting features.

Redundant power supply inputs enable the user to reduce the risk of power failure to the module.

Industrially Hardened - The Tofino™ HMRF is designed for industrial environments having a 27 year MTBF, -40°C to + 70°C operating temperature ratings and Class I /Div 2 (Zone 2) hazardous area approvals.

SPECIFICATIONS

Tofino™ HMRF Security Appliance

Honeywell Part No.

51154724-200

MTL Model No.

9211-ET-HN3

Description

Tofino™ HMRF Two Port Security Appliance

Protected Devices

Unlimited

COMMUNICATIONS

Ethernet Ports

Two IEEE 802.3 BASE-T ports (auto sensing or manual)

10 or 100Mbps, full or half-duplex

Auto Tx/Rx sensing

USB-2 Ports (Load updates/Save diagnostics)

Two

POWER (+ redundant power + power fail)**Power Inputs**

Two (dual redundant)

Operating Voltage

24V nominal (9V – 32V)

Current Consumption at 24 VDC

< 170mA typ.

< 350mA max.

Power Fail Inputs

Two

Connections

Screw cage-clamp 24...12AWG, 0.2...2.5mm²

SERVICE

Indicators

Power, Fault, Event, Mode

Link Activity and Speed

Config Switch

Load configuration from USB storage or

Save log files to USB storage

ENVIRONMENTAL

Temperature Specifications

Operating –40°C to +70°C

Storage/Transport –40°C to +85°C

Relative Humidity

10% to 90% (non-condensing)

MECHANICAL

Protection Class

IP 20

Mounting

35mm DIN rail or panel mounting

Dimensions (W x H x D) mm

146 x 138 x 42

Weight

0.36 kg

Vibration and Shock

IEC 60068-2-6 1g @ 20-500Hz

IEC 60068-2-27 30g for 11ms shock

EN 61326

EMC Annex A Industrial Locations

EN 61010-1

Hazardous Area Approvals

Location of equipment

Safe area or see table in APPROVALS section

Tofino™ Preconfigured Enforcer Firewall LSM for Modbus TCP and SNTP

Description

Tofino™ Stateful Firewall Module and Modbus TCP Enforcer Module

Type

Stateful Firewall with Deep Packet Inspection

Layers Filtered

Layers 2-7 with predefined Modbus and Simple Network Time Protocol (SNTP) rules

Firewall Rules

- Modbus Read commands from Experion to SIS
- Modbus Read replies from SIS to Experion
- SNTP Time requests from SIS to Experion
- SNTP Time replies from Experion to SIS
- Rate Controlled ARP

Throughput

1000 Modbus TCP Frames per second

Network Statistics

Automatic reporting of traffic statistics to Honeywell Experion stations
